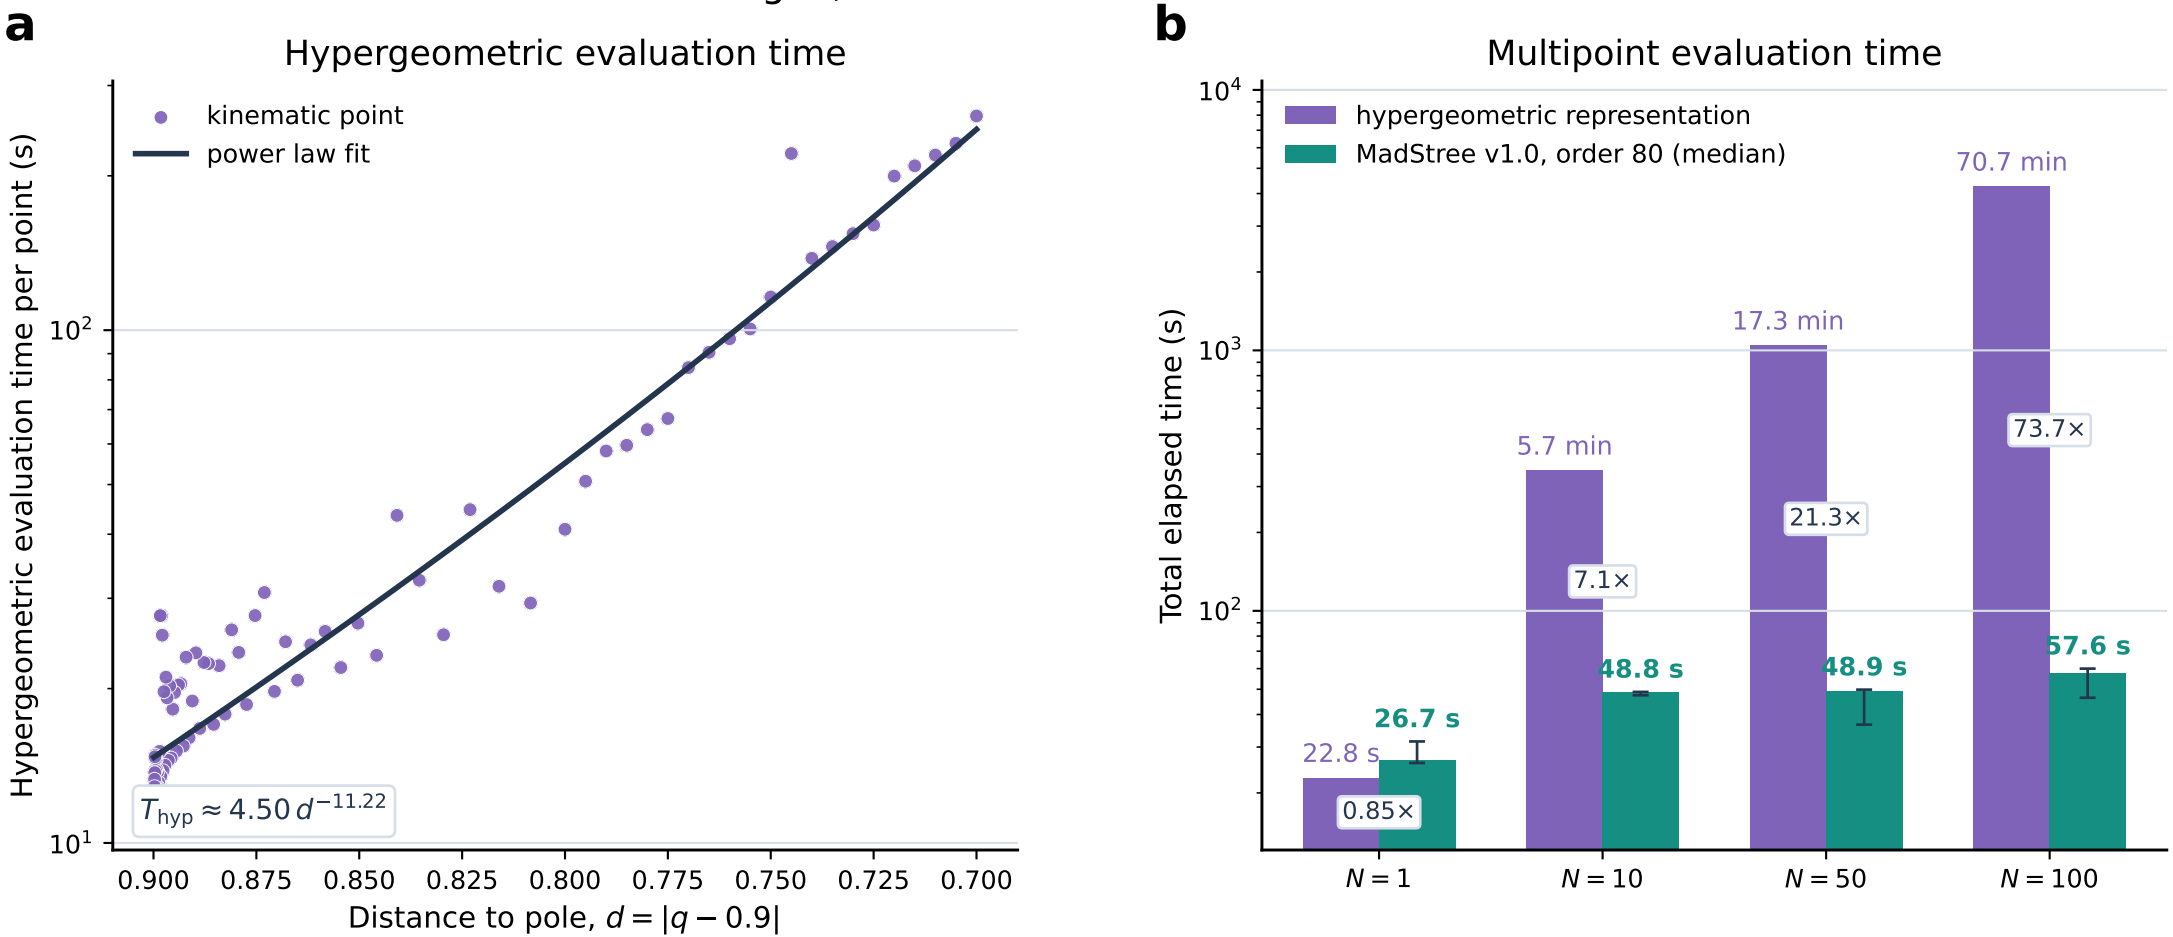
Tree with three vertices: MadStree v1.0 / FlintNDE v1.0
80 decimal digits; series order 80 for results and 96 for checks



Maximum transport relative difference (80/96): 3.19e-47; maximum relative difference from hypergeometric results: 1.71e-32

DE: medians of three fresh runs; error bars: min–max. $N = 100$ includes an additional path extension.
